EPILEPSY

I have been getting CBD oil for my brother now for just over 3 months. He has been a chronic sufferer of epilepsy for the last eight years. The epilepsy was due to a c. head or car accident when he was 16. The epilepsy never developed until he was 28. We have now gone beyond doctors and are under a professor. My brother had brain surgery. They removed a large lemon sized part of the brain, however the seizures continued. He takes a concoction of epillem, lamictel and a couple of others. No results whatsoever from prescription medications. After the brain surgery the doctors prescribed Endone. Even by the handful this stuff did nothing for the pain. Nothing!!! Since being on CBD we have had our first ever seizure free month in 8 years! The CBD instantly stopped the pain in his head, he no longer has night sweat, he's putting on weight, he has colour back in his face and the old Dan is coming back. His professor is not against CBD.

CANCER

Using the oil to treat GBM – operation in July 2015. MRI showed no growth in tumour over the last 2 weeks. This is positive because for the prior 4 weeks the tumour had grown by 50%. Also using liquid turmeric / intravenous Vitamin C. Another MRI in 3 weeks. If tumour doesn't grow in that time I will double dose of oil – using 20 drops a day now to doing 404 drops/day – aim to hold tumour and then start to shrink it. Cheers.

MULTIPLE - HEPATITIS C & CANCER

Picked up 3ml oil for wife who has liver cancer and Hep C. Find that the hot oil (3ml) keeps her pretty level and cold oil is treating liver directly. Last report was that her bloods were stable and we attribute that to the cannabis oils. Doctors know exactly what we are doing but legally they cannot endorse, only support us in our decision to use cannabis as our choice.

His quality of life is so much improved. Thanks so much for making it possible to get this most precious gift from mother nature.

3/4/16

CANCER

My wife's cancer count was 667,000 less than a year ago. It's now 2. She did have Advanced Hepatocellular Carcinoma – it is terminal in every case bar hers. The oil was the MAJOR COMPONENT of her recovery. Her last five founts are 8, 6, 4, 3 and 2. The oncologists call her the 'miracle patient'. This oil can do so much and without it she would be dead.

4/4/16

FIBROMYALGIA

My wife suffers from fibromyalgia. She had chronic pain in her hips, shoulders and hands. I am sure that at some stage she had contemplated taking her own life as a result of the pain and a hopeless future outlook. She now takes 2 drops of hot oil morning and night. Last week she told me she felt so well she could do a star jump! If I had not seen the effect and success of her oil with my own eyes I would not have believed it possible. If the Minister for Health lived with us, hemp oil would be lawful from today.

31/5/16

DEPRESSION

I just want to say thank you so much for all your work and help. I was in such a dark place before I turned to you for help. I was about to start on pharma meds for depression. Your CBD cold tincture has made such an impact on my life. Thank you so very much. I am raving about it. You are doing wonderful and important work. Thank you!!

22/6/16

REFLEX SYMPATHETIC DYSTROPHY

My father and Uncle both have terminal tumours and have had very good results with the oils. Thanks a million.

MNO

The cold pressure and 'hot' oil have been very beneficial for the treatment and stabilisation of MNO. Thank you so much for supplying the miracle oil.

15/7/16

TOURETTE'S SYNDROME

At first I was sceptical to try medicinal cannabis oil because nothing has ever worked for me before. I have Tourette's Syndrome and am 20 yrs old. I was diagnosed in 2000s and have been desperately trying to find something that can give me some relief. For many years of my life I have been on pharmaceutical pills to the point where they have begun to threaten my heart. I have been hospitalised several times from the side effects.

However I first went on medicinal cannabis oil back in January, ingesting 2 mls every night. Since then it has changed my entire life. For the first time in my life I can sleep, go to school, work, drive and live like a normal person. My tics have nearly completely disappeared. I only wish I could have known long ago that such an amazing cure existed. I remember being 11 years old and wanting to undergo deep brain surgery to make my disorder go away. I could have been spared from many years of pain. I am beyond grateful that I was able to be given this opportunity. I couldn't recommend it enough. Thank you from the bottom of my heart.

17/7/16

CANCER

I was a sceptic. I'm all in favour of science based medicine. My friend has pancreatic cancer metastasised and cancer markers are down from 33000 to 16000. Feel free to contact me to verify.

22/7/16

26/8/16

PARKINSON'S

Many thanks for all your advice on how to treat 'Parkinson's' which I have. The past 5 ½ years have been slowly getting worse on hospital meds. Right arm shaking, memory loss, speech slurring, stooping over, general pain, loss of sex life – the list goes on. The last 6 weeks I've been taking cold hemp seed oil plus CBD. The results have amazed me. 19th July - shovelling road base, levelling road base then screeding level. No after violent shaking (right arm), sitting and standing getting easier, next to no pain.

25th July – Bad day. Forgot to take my meds – pain and shaking.

29th July – Driving has improved. Now steering with my right arm again. Standing and sitting much better. 6 weeks ago I couldn't use a steak knife or cut my food, let alone write this letter and that's on ¾ dose of what you told me to take. Again many thanks.

7/9/16

I have been using oil for 2 ½ months. I have just gone off one of my medications for my autoimmune disease. It wasn't necessary any more because the oil is fixing everything.

CANCER

Have been getting the hot tincture now for 3 ½ months with both lung and liver cancer. With a controlled diet to keep her system alkaline the cancer has disappeared. It's always important to change your lifestyle and be strict and allow your immune system to contribute with healing.

8/9/16

AUTISM

I came here seeking help for my autistic son. Since using the oil he is now calm and not getting angry. He is eating better and socialising so much more. I can see a change in him.

14/9/16

AUTISM

I am really pleased to report that I have been giving my son, who has autism, the tinctures (Cold oil & the CBD) and have witnessed dramatic improvement in him. His is sooo much calmer and sleeps well and great appetite. We have tried so much with different therapies and diets and nothing has had so much improvements and has the tinctures.

FIBROMYALGIA

I have been using your hot & cold oil for 8 weeks now for fibromyalgia. I haven't had one day of brain fog which is LIFE CHANGING. Withdrawing from Lyrica has been painful, but I am so much happier using your oils.

20/9/16

CANCER

I have had lung cancer for 2 ½ years. I have been using the tinctures for at least two years. The oncologist can't work out why it is not growing & had not told me it has calcified. I honestly believe that the tincture has cured my cancer – I recommend it to all sufferers.

23/9/16

CANCER

My wife was diagnosed with Stage 4 metastatic lung cancer in June '15. She's still with us and doing well after a 6 month life diagnosis. She has been taking cannabis tinctures for just over 1 year now and will continue. The doctors are stumped. Thank you so much for making this available to us.

24/9/16

EPILEPSY

My son has had seizures now for 7 long years with no help from seizure medications. Queensland health is failing to act and I'm here as the oil I get is working so much better. He's gone from falling off the toilet or shower to very mild seizures now, so thank you for helping my son.

24/9/16

MULTIPLE - LEG ULCERS & PAIN RELIEF

I've suffered with leg ulcers for years with no relief of pain until I found your product. It allows me to sleep, relax and it helps with the pain. It's a wonderful relief. And I've recommended it to others for all sorts of help. Thank you.

25/9/16

CANCER

I've had tongue and neck cancer 2012 and neck cancer 2013 – chemo and radium had no effect. Subtle changes with saliva glands and taste buds after 2 months on increasing cannabis oil, after 4 years of tasting nothing at all. Sleeping better. Head space better.

My wife been dealing with pain for years. This med finally helps her. It's really is a blessing to finally get something to help her pain. She's finally happy and relaxed with some pain relief. So a big, big thank you.

CEREBAL PALSY

Miss X (Cerebral Palsy) and Miss Y (carer)

Since X has been coming to Nimbin and trying various medicinal cannabis products she has experienced massive progress in my opinion. Eating is usually difficult and typically a time that X is uptight. The spray X has been using has an immediate relaxation effect which enables her to eat. Very important product that she uses on a daily basis. There has been an improvement in her use of vocals too. Although she isn't using a recognised language, her vocal ability has improved and enabled her to communicate with me (Y) in another way (in addition to her info board). Not only have the products helped X to feel more comfortable on a daily basis, the ongoing day-trips (and sometimes overnight) have been a great source of happiness for her. She greatly looks forward to trips and spending time with people. Many thanks as always.

27/9/16

CHRONIC PAIN

Chronic back pain. I used to take oxycontin 180 mg + 240mg endone. Now I take this CBD + THC it's a miracle.

28/9/16

MULTIPLE – ARTHRITIS / PAIN RELIEF / APPETITE & MORE

It's been about a month now on the oil. Oh my god, amazing. Arthritis disappeared, neuropathy in leg and foot almost gone totally. Couldn't put on weight. Doctors were saying I had bowel cancer or cervical cancer or some crap like that. One week on the oil, put on 4 kilos. Beautiful. Whatever was going on in there is already better. My brain has come back to life. My intuition coming back. My eyes are shinier than ever. My 8 year old boy with hyperactivity, ear, problems, growth retardation has just been amazing. Expressing himself more than ever. Absolute magic. So grateful. Magic, magic, magic. Thank you. Optimum health for all the family.

11.10/16

DIVERTICULITIS

I have been diagnosed with abdominal lymphadenopathy, cysts, diverticulitis, calcium growth on kidneys and huge growths tangled round my cardinal veins. The Dr said if the specialists (oncologists) can't find a way to dissolve them I would only have another 6 months to live at most. So I immediately thought of cannabis to do the job. After one week on the oil the improvement is unbelievable. My swollen stomach is back to normal, pain has gone, no nauseas etc. etc. blah blah blah!! Gratefully yours.

12/10/16

MULTIPLE – PAIN RELIEF / MIGRAINE / APPETITE

I am on my 5th week having had 10 back surgeries at 29. This is the first time I have had any relief. I am also now able to eat. Also haven't had a migraine.

I had oesophagus cancer diagnosed two years ago, had chemo, radio and operation; everything was good until till one year later cancer came back and attacked lymph nodes. More chemo, but this time also with your hot oil and cold oil. Did a scan and from 4 spots diagnosed only 2 left and the 2 were halved. Next week another CT scan. Can't wait for the results! The oils are the answer in my opinion. Thank you.

3/11/16

CANCER

38 yo. Cancer terminal male – My husband. If this doesn't save his life, it has definitely prolonged his life. The only medication that entices appetite and puts a light smile on a very desperate man. God bless you.

17/11/16

PAIN RELIEF

After 3 doses – very impressed with improvement of pain – will continue

19/11/16

GENERAL

Being an old bugger (66yo) I figured needing to pee every 20mins was par for the course (even if nothing much came out). A couple of days ago I started using the spray, mainly to help my body recover from 3 days driving from Melbourne. Last night I went out with friends and had a great time, then on my way back to my room I suddenly realised I hadn't peed about 5 hours LITERALLY. My first thought was 'Oh no, I must be really dehydrated', but I went to the dunny and had the longest and strongest pee in YEARS. Somehow the medicine had switched off the false urgency and it's been good ever since.

21/11/16

PARKINSON'S

Husband diagnosed 6 years ago, had high pain due to never damage and Parkinson's tremors, was taking his dose of morphine then another pharmaceutical for pain relief. Twelve months ago we started him on CBD in olive oil and slowly weaned him off the pharmaceutical. He now only uses CBD oil for pain relief. We need to make this wonderful herb legal to use for so many health conditions.

22/11/16

MIXED CONNECTIVE TISSUE DISEASE & FIBRO

Helped to relax muscles which gave relief and diminished tremors. Helped with chronic nausea and being able to eat full meals. I managed to sleep through a full night without constantly waking due to aches and pains. Full night sleep really benefited overall health. It also improves me mood in a positive way – used drops of oil around 40 minutes before going to bed. Hopefully gradually lower dose of other medications with harmful side effects with the use of medicinal cannabis.

23/11/16

TUMOR

My son (3 ½ years) was diagnosed with a brain tumour 4 months ago. We started the oil and his tumour has shrunk by 50%. It's the best result his oncologist has seen. We are so happy. Thank you.

23/11/16

DENTAL

I suffered from trigeminal neuralgia due to dental abscesses for about 10 and a half years on and off. They have become worse lately. A neighbour kindly gave me ½ bottle of THC-A oil and I have not had an attack since and the abscesses are also healing.

23/11/16

This oil is the reason my mum is in the group of people in her age group who have survived past a year with stage four glioblastoma. We love cannabis oil. Thank you.

26/11/16

ARTHRITIS

My son has not been able to work because of bad arthritis and either had to get operation and no more scripts. After 3 days he can walk up stairs and at 27 he has confirmed knees of an 80 year old. This is the best.

3/12/16

Chronic arthritis in both hands. You have taken away my pain. I feel like a kid again & I can play my guitar again & ride my bike without pain. Have faith in what these people have to say. They are awesome.

5/12/16

CANCER & LYMPHOMA

Advanced breast cancer & lymphoma.

I've been taking the THC & CBD oil since April 2016 for breast cancer recurrence & lymphoma (caused by chemo ten years earlier). Since taking the oil, and making a series of other big changes to me lifestyle – (fasting – LOTS of fasting, veg juice, plant based, H2O2 + wobenzyme) I have made 6 tumours disappear, with the 3 I have left smaller than on my last scan. Thank you for your tireless, dedicated work. It is truly life saving.

6/12/16

MULTIPLE

As a support worker, my clients use this kind of treatment to treat pain, spasms instead of taking other recommended pain killers which leaves them unable to properly function and limit ability.

9/12/16

CANCER

Mum was diagnosed with Stage 3B lung cancer in September 2016 – told with chemo had 12 months to live. Started chemo November 2016 and was admitted 3/7 later with pleural effusion and partially collapsed lung. Obtained oil a week later as the 2nd dose cancelled. Mum has been taking the THC tincture and 2 droppers of CBD a day. Today was told 10cm lung cancer has shrunk to under half the size. Oncologist was blown away – called it 'a dramatic reduction in tumour size'. We are so grateful. Can't wait to see what a further 3 months of treatment will bring. I've got my mum back.

17/12/16

EPILEPSY

Epilepsy in 2 months has gone from 5 big seizures a day to 1-2 small seizures a day. 12 years old and has no side effects at all.

19/12/16

Finally pain free for 2+ months.

6/1/17

I was on a 90 day (CBD) program for pre-cancer cells and had a check up yesterday and it was all clear. Thank you for offering this to those in need. You ROCK! Keep the love and healing happening!!!

7/1/17

HEPATITIS C

I want to thank you for your support in the past 18 months. Cannabis oil helped me with Hep C. My liver function improved a lot over the last 18 months. My last blood test revealed I had problems: four years later the numbers had vastly improved. My Doctor was surprised by this – a progressive disease doesn't normally improve.

8/1/17

PAIN RELIEF

My experience with cannabis oil has been most beneficial in the way of pain relief as I have a tumour in the head of the pancreas which is one of the most painful conditions to experience. The tumour being that large is putting pressure on a bile duct that needs to be open at all times to operate properly.

20/1/17

PAIN RELIEF

I began using the oil in August I've now been 2 months without pain meds. My inflammation levels have dropped and I've cut back to half of my anti inflammatory meds. Your oil is brilliant. Much love.

25/1/17
